CAT CASTLE MANUAL

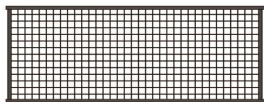

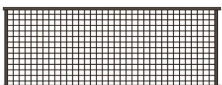

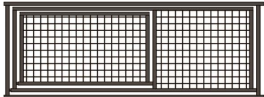

2.4mx1.2mx1.8m

Please read this manual carefully before assembly

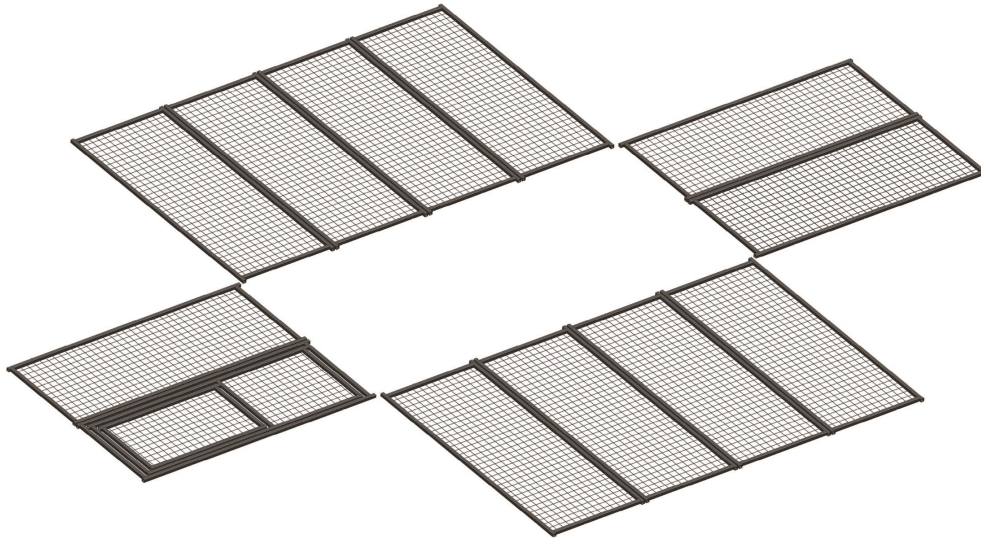

2.4mx1.2mx1.8m Part List

Part No	Part Name	Part Picture	Part Quantity
1	Big Panel		11
2	Small Panel		4
3	Door		1
4	Roof Truss Frame		3
5	Ridge Pole		2
6	Roof Cover		1
7	Roof Cover Bungee Cord		14
8	4-Way Center Clamp		1
9	Ridge Pole Clamp		2
10	Panel Clamp		40
11	Gate Latch		2
12	Tube Cap		44

○ 2.4m x 1.2m x 1.8m

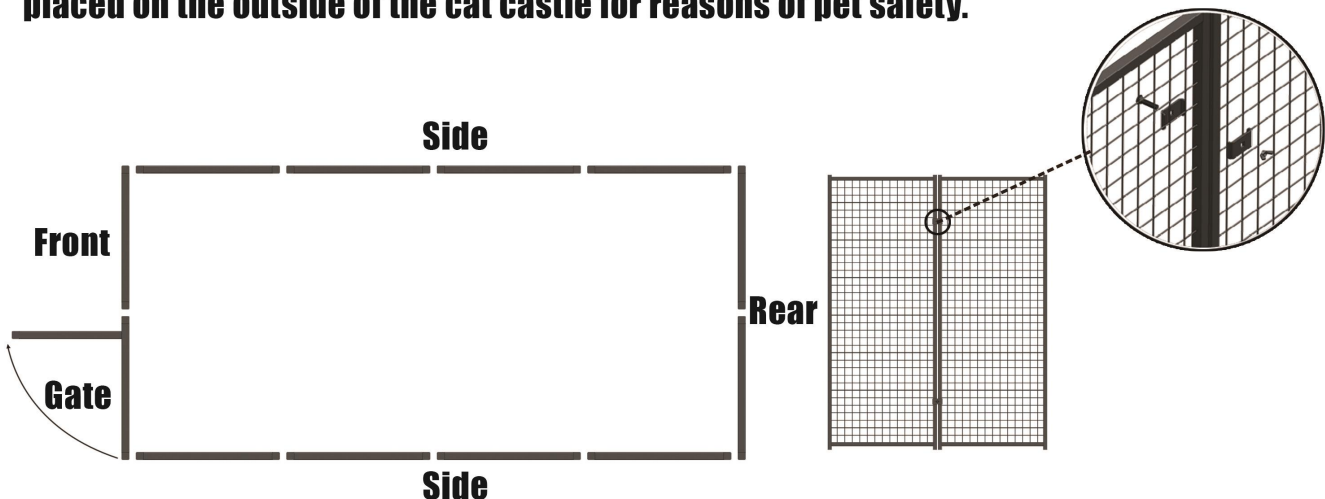

Step 1 - Lay Out The Big Panels

Two big panels for the front and back and four big panels for each side. The 2cm leg extensions are at the bottom of the big panel and should face inward in this step.

Step 2 - Connect The Big Panels

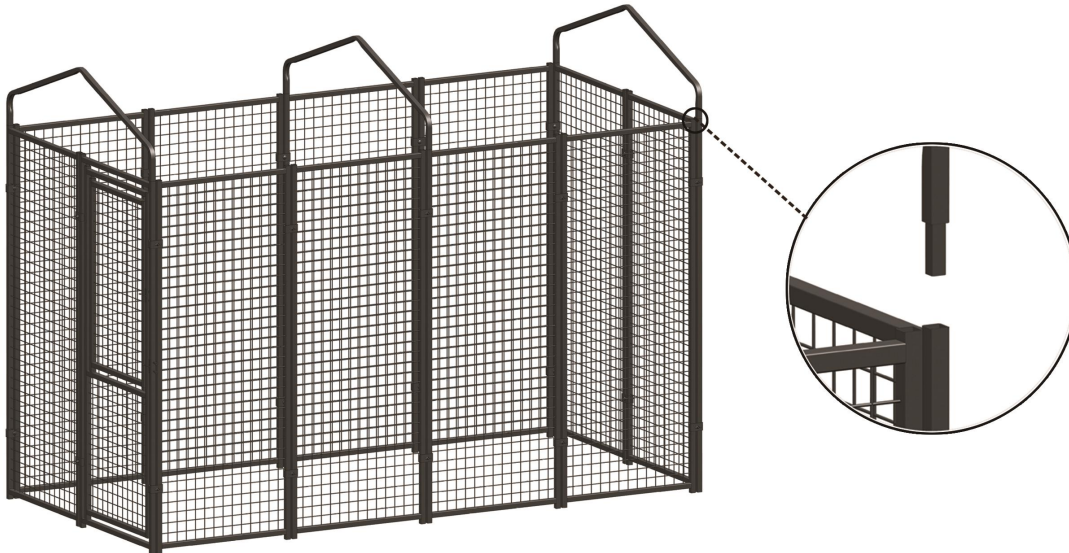

Place clamps about 150mm from the top and bottom and fasten with bolts and wing Nuts. Make sure the front and rear big panels are placed to the outside of the side big panels. (Note the corners) If placed incorrectly, the width of the cat castle will be increased and roof truss frames will not fit in the next step. Note: wing nuts should be placed on the outside of the cat castle for reasons of pet safety.

○ 2.4m x 1.2m x 1.8m

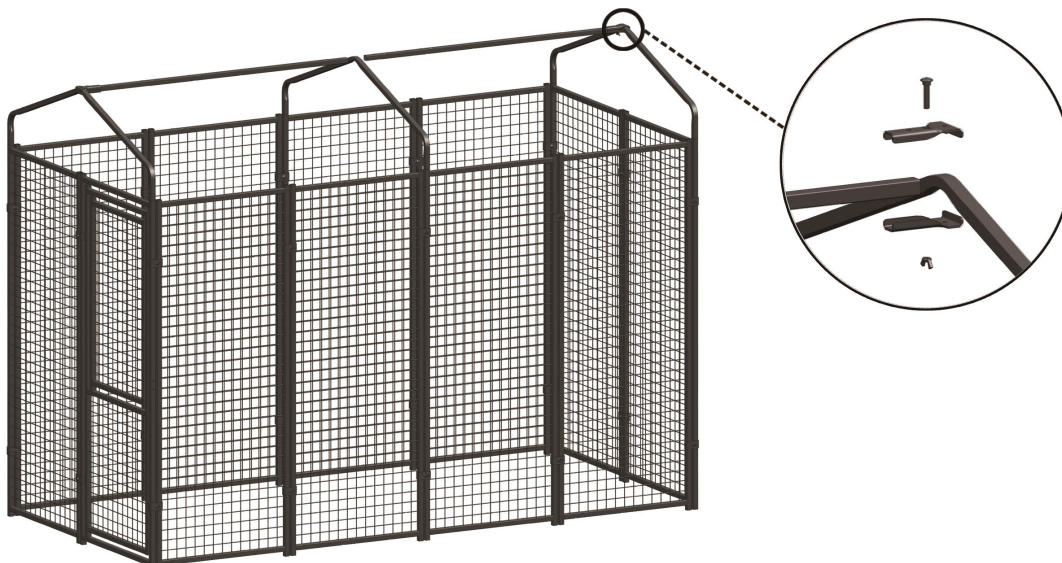

Step 3 - Install The Roof Truss Frame

Insert the roof truss frame into the ends on each corner and in the center of the cat castle.

Step 4 - Install The Ridge Poles

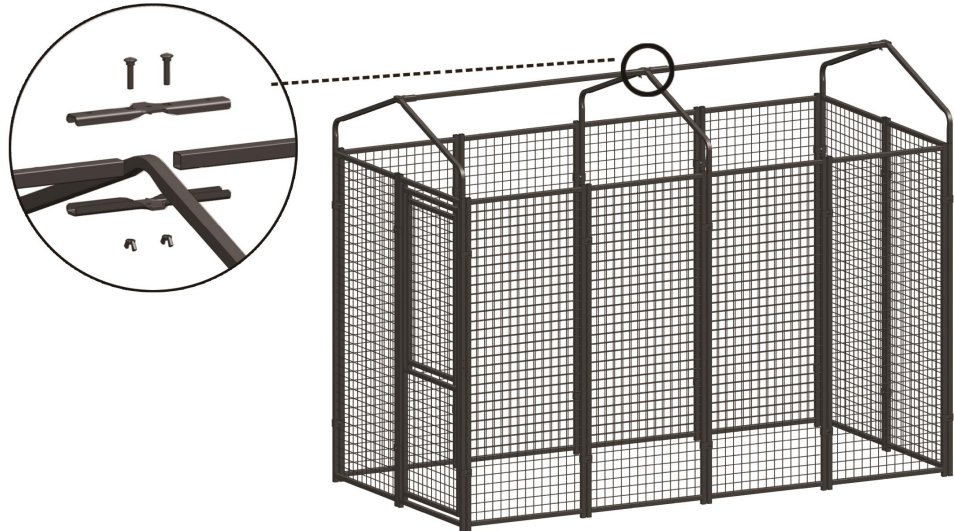

Fasten the wide ends of one set of ridge pole clamps to one truss frame as close to the peak as possible. The clamp pieces should be at the top and bottom of the frame, facing together. Insert one ridge pole into the narrow end of the clamp. Repeat on the other truss frame. The two ridge poles should now be attached to the ends of the cat castle, perpendicular to the truss frames, and ready to be joined in the center in the next step. Note: wing nuts in this step should face down so that they do not damage the roof cover.

○ 2.4m x 1.2m x 1.8m

Step 5 - Connect The Ridge Poles

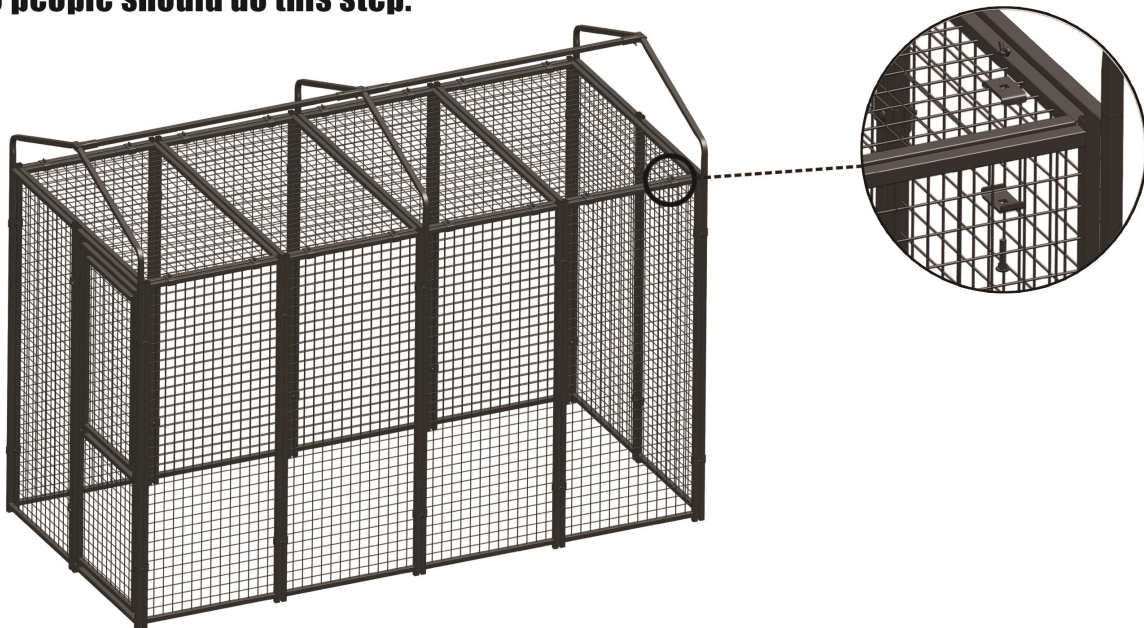

Fasten the 4-way center clamp to the center truss frame as close to the peak as possible. The clamp pieces should be at the top and bottom of the frame, facing together. Attach loosely with bolts and wing nuts. Insert ridge poles into each end, then adjust and tighten wing nuts. Note: wing nuts in this step should face down so that they do not damage the roof cover.

Step 6 - Connect The Small Panels

Place clamps on to connect the big panels and the small panels and fasten with bolts and wing nuts. Note: wing nuts should be placed on the outside of the cat castle for reasons of pet safety.

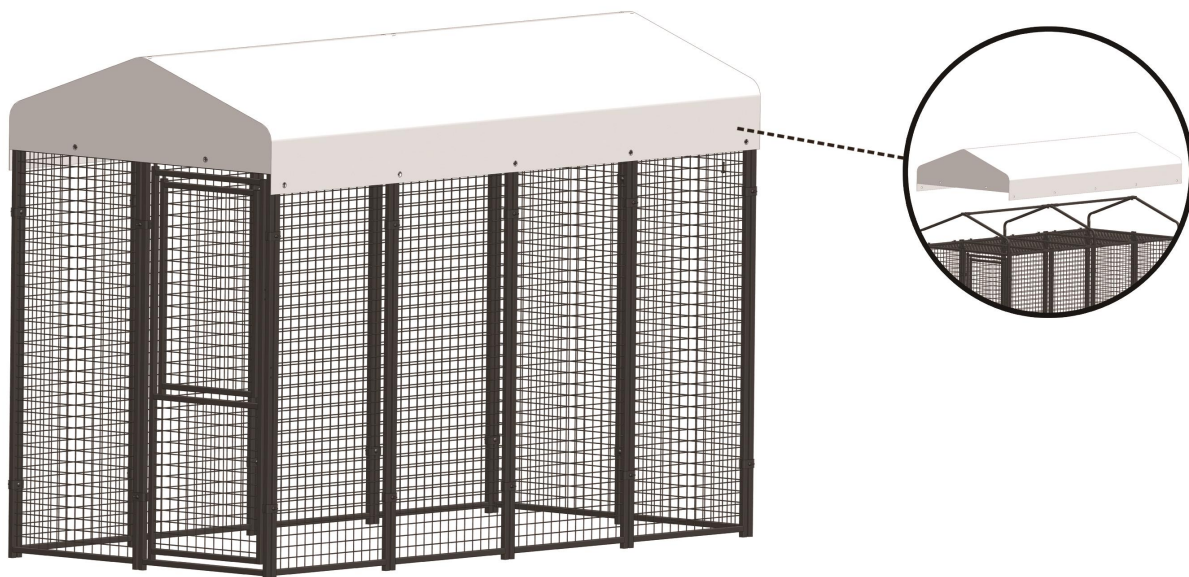

Two people should do this step.

○ 2.4m x 1.2m x 1.8m

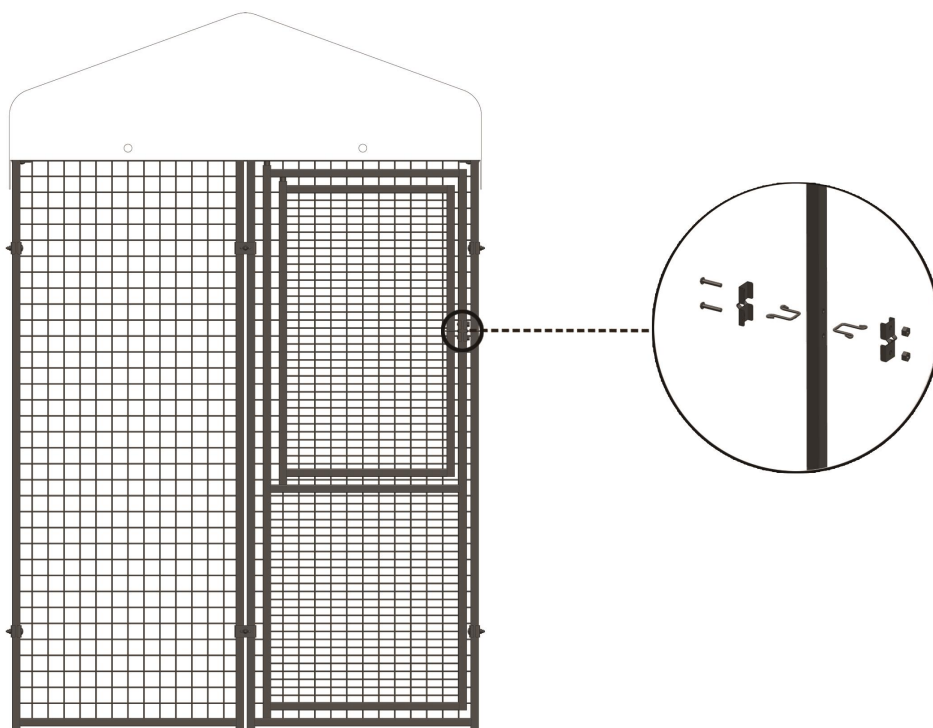

Step 7 - Install The Roof Cover

Drape the roof cover over the frame and evenly attach the bungee cords.

Step 8 - Install The Gate Latch

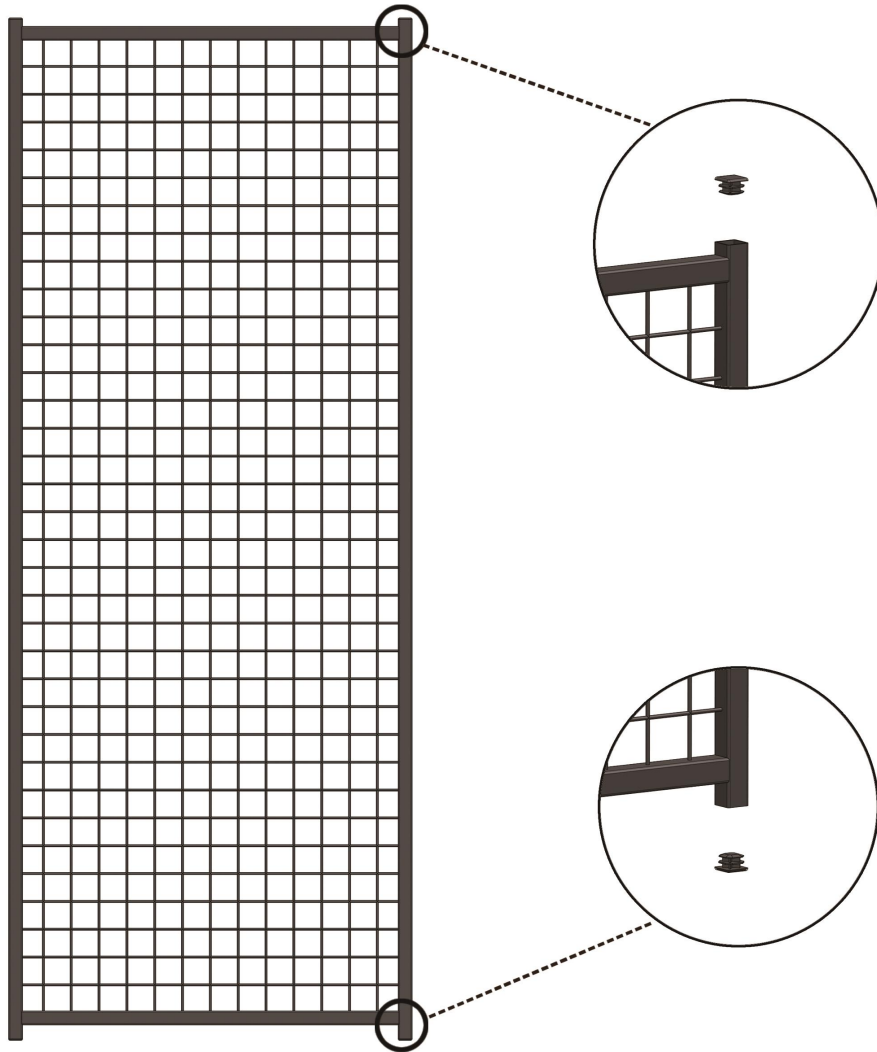

Fasten both gate latches to the door.

○ 2.4m x 1.2m x 1.8m

Step 9 - Tube Cap (optional)

The tube cap can be inserted into each end of the big panels as protection.

o 2.4mx1.2mx1.8m

Thank You for Buying from InTheMarket.ie!

We appreciate your support. As a valued customer, please use the discount code ITM5 for your next purchase for a 5% discount. Feel free to share with family and friends. We hope that you have many happy years with your new Cat Castle. Please note that even outside of your warranty, we carry spares and we also have a repair service available, so your product will last for many, many years.

We Would Love to Hear What You Think.

We are a small, Irish, family business and we only sell to the Irish people. We Irish love to hear about other people's experiences, so it would mean a lot if you could take a few minutes to leave a review about our products and service on www.TrustPilot.com. Just search for Inthemarket.ie. Thanks again.
